

# MAIN MENU

The main menu can be accessed at anytime in the app by touching the menu button in the top right corner of the screen. The menu will also be the first thing open when someone touches the screen during attract mode.

This menu offers navigation to the two main sections of the application: Stories (see page 4) and the Page Explorer (see page 7).

The menu button in the top right corner of the screen opens the main menu.

The help button in the top left corner of the screen will show guiding information about the current screen.

“Read Stories” will bring the user to the collection of stories about the Codex Leicester.

“Explore Pages” will bring the user to a menu where they can select specific pages of the Codex to browse.

The close button will close the main menu.

This button will reveal additional information about the Codex Leicester and the credits of the Codescope 2.

EXIT THE APP →

Versions of the app running on a tablet may also have an “Exit the App” button at the bottom of the menu. This exits back to Windows.
